

Exclusive canoeing and fishing adventures

A real wilderness adventure with fantastic fishing in unique water.

Stress is total unknown in this adventure.

This trip we have done a number of times and always rewarded with plentiful catches of big grayling, pike and perch. These fishing spots are unknown land for most people and it is extremely rare that meet anyone here.

We paddle by canoe through the lakes and downstream enchanted streams. The sun never sets and the wonderful light is with us day and night.

Here we come close to the birds, elk and other animals.
